

SDV Bernard Midlands Region move to new logistics centre

3 March 2008

SDV Bernard Ltd is delighted to announce the relocation of its Midlands region headquarters from Tamworth to a new logistics hub in Sheldon, near Birmingham airport.

The new, more conveniently located premises will better serve the needs of its customers in the Midlands area, providing a rapid and cost-effective response to specific requirements and in particular enabling faster turnaround times for air freight movements.

The move to the new site allows flexibility for SDV Bernard's business expansion in the Midlands, and will additionally include access to greater warehouse capacity with the ability to accommodate bulk storage.

The new details are as follows:

*SDV Bernard Ltd
Garretts Green Freight Terminal
Bannerley Road
Sheldon, Birmingham B33 0SL*

*Tel No: 0121 508 4000
Fax No: 0121 508 4099
email: midlandsregion@sdvbernard.co.uk*

Headed by Frank Smith, the facility will become fully operational on 3 March with no change to the existing team, who will continue to offer the same high levels of service supported by the SDV Group's powerful global network.
